for kids

healthy bodies, happy kids!

nutrition for the next generation

## A Growing Need

One of the biggest factors in childhood development is nutrition. Data shows inadequate child nutrition hinders growth, leads to poor grades and increases illness susceptibility.

Key nutrients are essential to the development of a child's brain, eyes and nervous system. Unfortunately, the modern child's diet includes many over-processed foods. Today's kids rarely get the complete array of vitamins, minerals, protein and micronutrients necessary to reach their full potential. That's why Reliv Now® for Kids covers more than just the basics.

## LunaRich®: A Second Line of Defense

Studies show that soy promotes healthy childhood development and decreases the risk of chronic diseases later in life. Reliv's exclusive LunaRich soy powder takes it a step further. LunaRich contains five to ten times the bioactive lunasin of ordinary soy powders. Lunasin provides a second line of defense when the body's initial defenses fall short:

**Nourishes.** Delivers the nutritional fuel to promote optimal expression of genes required for normal cell function.

**Protects.** Reduces inflammation and cell damage caused by free radicals and other environmental hazards. Protects in two ways:

- Prevention. Activates the expression of genes that help reduce cell damage and prevents the expression of genes that can cause cell damage.
- Maintenance. Helps remove damaged cells from the body that may cause chronic health problems.

## Give Them the Best

Compare Now for Kids to the most popular children's multivitamin pills. Notice anything different? Now for Kids is a powdered supplement that delivers nutrients in a liquid shake rather than a pill, enabling quicker, more complete absorption.

Next, look at the label. Cutting-edge nutrients make Now for Kids the superior children's supplement. A special proprietary blend of advanced ingredients is designed to boost kids' energy, growth and mental performance.

**DHA:** omega-3 fatty acid critical for development and function of brain, eyes and central nervous system.

**PS and PC:** (phosphatidylserine and phosphatidylcholine) support healthy cellular development, mental clarity, memory, learning and cognitive function.

**Grape Seed Extract:** powerful antioxidant that protects against cell-destroying free radicals.

an omega-3 fatty acid in Reliv Now for Kids is critical to brain function.
