The statements contained in this material have not been evaluated by the Food and Drug Administration. The personal testimonials shared reflect individual experiences of Independent Reliv Distributors and are not necessarily typical of the results you may obtain. Reliv products are not intended to diagnose, treat, cure or prevent any disease.

As with any independent business, success as a Reliv Distributor requires a significant amount of hard work and dedication. The individuals featured in this material offer a glimpse into the lifestyle and economic benefits they are enjoying through the Reliv opportunity as a result of their own skills and personal effort. These stories are examples only and are not intended as averages or guarantees.

Turn on the Power of You

I, along with many of Reliv Asia Pacific's Distributors, recently returned from an incredible Win Your Way Leadership Summit trip in Phuket, Thailand. This was an enjoyable recognition of achievement and celebration of success. For those of you who missed out on this event, I encourage you to work towards the next incentive! Those leaders, who achieved this promotion, worked hard to get there and as a result, are continuing to benefit from the growth happening in their Reliv businesses. You can have that too!

One of the messages I personally delivered in Phuket was to remind people WHY Reliv was started in the first place. WHY it started was that Dr. Theodore Kalogris, created a single product, to not only better his health, but to eventually help people around the world better their health too. WHY Bob and Sandy founded Reliv was to help everyone improve their own financial well-being and better their family's lifestyle. I also reminded everyone WHY we chose Network Marketing as it's the fastest vehicle to change as many lives possible, WHY we chose a solid, industry proven Breakaway Compensation Plan Model to reward Distributors and WHY you want to be Master Affiliate; because we know the Master Affiliate level and above will tell more people about Reliv faster than anyone else. Reliv was created with and on purpose – to help as many people as possible as quickly as possible and the bigger your business is, the more people you are helping and lives you are changing!

Don't ever forget, Reliv was built for a reason and is meant to be shared. Dr. Ted didn't keep his product formula to himself. Bob and Sandy didn't keep the business opportunity for themselves. You have the same opportunity they had. Your role as a Reliv Distributor is to share your story each and every day and give more people what you have with Reliv. People all around the world today are looking for better health, improved financial situations and a much better lifestyle with fun and freedom. Why not share that opportunity every single day?

Your job is to not only set a direction for yourself, but also for others in your downline to move up to the Next Level. Be a Reliv leader! Having the leadership and a winning attitude is contagious and can build momentum fast, which in turn will create success.

You have the keys to be the leader, and it is up to you how you are rewarded for your success!

WIN YOUR WAY 2015 TO

PHUKET THAILAND!

These Distributorships from the Reliv Asia Pacific region achieved this four night and five day stay (May 15–18, 2015) at the luxurious Katahoni Resort in beautiful Phuket, Thailand. These leaders experienced team building fun, an excursion to the remarkable James Bond Island, gourmet dining and endless entertainment. **Congratulations!**

Business Experience

to the Next Level

The Reliv Asia Pacific (RAP) Mobile App is the latest MUST-HAVE online business tool for all Reliv business-builders! This fun and easy-to-use app allows Distributors like you to work your business on the go and from the palm of your hand. The Reliv App is now available from the iTunes App Store and Google Play Store and can be installed on any smartphone and/or tablet for FREE! Reliv Distributors can now build their business like never before!

The opportunity to grow your business using the Reliv App is HUGE! Experience it today!

The Reliv App is easy to use and allows you to build your business anywhere you go:

- » Share short product presentations and health testimonial podcasts with people you meet on the bus, at the airport or while waiting for your doctor's appointment.
- » Check out the product price list and place your order while enjoying a day at the mall with your family. In fact, you can order products through the Reliv App anytime of the day – even after business hours.
- » Present the powerful business opportunity videos and slides over lunch or coffee with colleagues or friends.
- » Out of town or on vacation? You can still be the first to know about the latest announcements and promotions and share it easier and faster through your social network.
- » You'll never know who you'll meet and talk to today and it's great that you can sponsor and sign up a new Distributor or Preferred Customer easily in just a few minutes using the Reliv App.

DOWNLOAD the Reliv Mobile App today!

For iPhone and iPad:

- 1 Open > App Store
- 2 Type > Reliv Asia Pacific in the search engine box
- 3 Click > +Get to install for FREE!

For Android phones and tablets:

- 1 Open > Play Store application
- 2 Type > Reliv Asia Pacific in the search engine box
- 3 Click > Install for FREE download

Business On-the-Go

Are you always on the go? Then the Reliv Mobile App is perfect for you! Here's how our business-builders grow their network of customers and Distributors using the Reliv App:

Just click on JOIN!

It's so easy to sign up a new Distributor or even a Preferred Customer through the Reliv App. I don't need to print out the New Distributor Application form anymore, have it signed and look for a fax or scanner to submit it by email. I just ask my prospect to fill-in the online form and it only takes a few minutes to finish it. The excitement is sustained and my new downline is ready to order products or start his/her own business.

—Pia Mauleon, Quezon City

Just click on VIDEOS!

When I meet a new person on the road, bump into an old friend or I'm excited to share Reliv but only have a few minutes to spare, I know that I have to make every second count. I'm glad that the new Reliv Mobile App has compiled the most useful business and product video presentations and it only takes a few taps on my smartphone to access them. When they get excited about Reliv, then I make sure to do follow up and ask for referrals!

—Marilyn Arenas, Tagum City

Just click on WEBINARS!

For busy people like me who work in an office 5–6 days a week, finding time to attend Reliv trainings can be a challenge. I love that the new Reliv App contains Reliv online trainings or webinars that I can watch during my free time so I can still keep myself up to date with regards to business presentations. It's also easy to share the webinar links with the members of our downline to help them know more about the company and also help them become more confident when they share Reliv.

—Robert Uy, Lapu Lapu City

Just click on EVENTS!

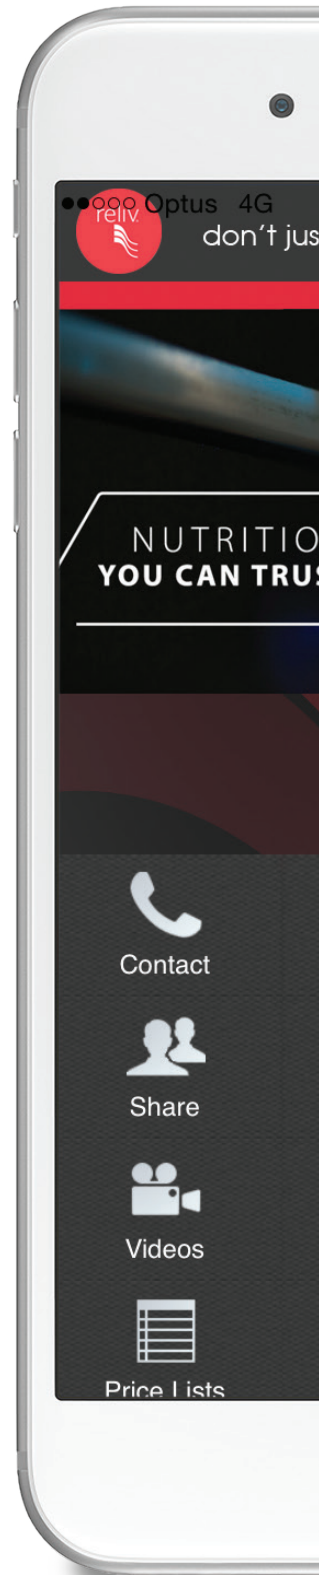

We have customers, prospects and business-builders from different parts of the country and using the Reliv App to check on the special events information is very helpful to keeping the momentum in our group. I don't need to call the Reliv office or log in the computer and search the events list on the website. The Reliv App saves me time and effort so I can talk to and invite more people to events right away.

—Rose Blancaflor, Pasig City

Just click on PODCAST!

With the Reliv App, my wife and I can share more health stories with our prospects and customers with just a simple click. We don't need to spend a lot of money to call other Distributors to share their stories. The audio recordings of real testimonials of people from all over the Asia Pacific region helps strengthen our wall of belief in the products and also help entice new people to try Reliv.

—Ted Seno, Paranaque City

What does a Reliv shake mean to you?

It can be a morning drink or a cup of refreshment. To some, it is a feel good shake or maybe a comfort drink. To many, a Reliv shake represents hope for better quality of life. Here are their stories...

Hi my name is **Sherry Sjamsuri**.

Before Reliv: I have always had horrible seasonal allergies. My immune system has also been weak and I've often caught the flu.

After Reliv: I have noticed a difference in my overall health and I know my immune system has strengthened. I can definitely tell a big difference during allergy season. I have a lot more energy and I have more endurance when I exercise. Since starting Reliv in 2007, I've noticed that my seasonal allergies no longer limit me from enjoying my life. Additionally, my cholesterol is lower and Reliv has helped improved the joint function in my knee and ankle. I love Reliv so much! Thank you Reliv.

Hi my name is **drg. Shirley Mathilda**

Ingrid. I was diagnosed with breast cancer in 1992. I was cancer free until 2009, that is when my cancer became active again.

Before Reliv: I was still suffering from chronic fatigue from all the chemotherapy, and this was the hardest time I have ever gone through in my life. I needed good nutrition to help keep my body healthy. I tried various nutritional supplements but nothing worked.

After Reliv: Praise to the Lord, I was introduced to the Reliv products! Reliv Now and LunaRich X - this combination of Reliv products was a blessing!! I was feeling so much better than I had for a long time! I've taken the products for three months and I have already started to feel the health benefits. I am now able to do normal activities, like any other healthy person. Reliv has given me new hope. Don't give up!!! If it's taking longer than you expected to see results, don't lose faith. Sometimes the best things take a little extra time. I'm so glad I didn't give up and lose faith, if I had, I wouldn't be experiencing great health today! I Thank God each day for my health and for leading me to Reliv.

Check out the
Indonesia
product line at
relvasiapacific.co.id/reliv-products

Hi my name is **Halim Winataatmajaya**.

Before Reliv: I suffered from Gastroesophageal reflux. Every month, I'd have to go see my doctor to help control my health problem. My father-in-law had a stroke, memory loss and had very limited mobility.

After Reliv: In 2007, I was introduced to Reliv. Two weeks after starting on the basic nutrition, Reliv Now, FibRestore and Innergize, I received amazing results. My father-in-law only forty-five days into Reliv, was able to start moving more. He was able to walk and do some activities around the house. Over time, Reliv built up and strengthened his immune system. He can travel with me and my family. I give God the glory and thank Him for bringing Reliv into my family. Now each month, I feel better and continue to see improvements. Reliv has given me back my life and has given me hope for the future.

Hi my name is **Sri Lies Lestari**, I'm 69 years old and I am a social activist. I'm very busy and have a lot of activities with my organisation like singing, dancing, etc.

Before Reliv: I grew very concerned when I began to experience achy joints and discomfort in my feet. I was also dealing with discomfort in my knees, I could not get up and down the stairs or wear high heels – how can I dance without my high heels?

After Reliv: After only a short time on Reliv, my feet felt so much better. The discomfort drastically lessened. My knees have significantly improved. My heart health and cholesterol are at healthy ranges and what I like best about Reliv, is that I now get a good night's sleep every night! It's amazing how Reliv nutrition and supplementation has improved my overall health. I will never stop taking my shakes.

What's your story?

We want to hear how Reliv nutrition has changed you or someone you know. Email us at idinquiries@relivinc.com and have your story featured in an upcoming Reliv Lifestyle Magazine.

by Tina Van Horn, Director of Research and Business Development at SL Technology, Inc., a Reliv Company

OUR FOOD IS LEAVING US EMPTY

Food is not what it used to be. Several studies have shown a significant reduction in the micronutrient content of many fruits and vegetables over the course of the 20th century. The average vegetable found in today's supermarket is anywhere from 5% to 40% lower in selected minerals than those harvested 50 years ago.

A combination of factors contributes to the decline, but it is most easily explained by changes in cultivated varieties. As farmers select higher yielding varieties, the carbohydrate content increases, but concentrations of micronutrients decrease, often referred to as the "dilution effect."

The agriculture industry has prioritized increased yields and improved resistance to pests and disease. This has led to innovations in mechanization and the development of new plant varieties through genetic engineering. Innovations focus on extending shelf life, as well as improving the taste and sensory experience of food. Convenience is now a driving force as consumers seek packaged foods that cut preparation time.

GOOD NEWS, BAD NEWS

The good news: Advances have created a greater, more affordable food supply. Many deficiency and communicable diseases have essentially been eradicated and we have unprecedented access to a variety of foods, many of which are ready-to-eat, or require minimal preparation.

The bad news: Depletion of micro- and phytonutrients, increased incidences of over nutrition and epidemic rates of chronic disease. "Nutritional research has become much more important, since we can no longer assume that we can obtain all necessary nutrients from diet alone," notes Reliv Chief Scientific Officer **Dr. Carl Hastings**.

He adds: "As an example, the Food Science Department at the University of Illinois, my alma mater, has changed its name to the Department of Food Science and Human Nutrition, with more staff devoted specifically to nutrition research. Other universities have made similar changes in order to address the need for nutrition, not just food."

LUNARICH AND THE EVOLUTION OF NUTRITION

LUNARICH RAISES THE BAR

DR. GALVEZ, CHIEF SCIENTIFIC OFFICER AT SL TECHNOLOGY, A RELIV COMPANY, FIRST DISCOVERED LUNASIN AT UC BERKLEY IN 1996 WHILE WORKING TO IMPROVE THE NUTRITIONAL PROFILE OF SOY PROTEIN. HE NOTES: "AT THIS TIME, MOST PLANT BREEDING RESEARCH PROGRAMS WERE EMPHASIZING YIELD, DISEASE, PEST AND ENVIRONMENTAL STRESS RESISTANCE, INSTEAD OF NUTRITIONAL CONTENT"

MORE THAN 80 PUBLISHED STUDIES ON LUNASIN AT MORE THAN 30 RESEARCH INSTITUTIONS FOLLOWED. AND TODAY LUNASIN IS AVAILABLE IN A HIGHLY BIOACTIVE FORM IN LUNARICH® FROM RELIV. LUNARICH IS THE CULMINATION OF YEARS OF TRIAL AND ERROR IN AGRICULTURE PRODUCTION AND FOOD PROCESSING RESEARCH THAT SETS THE BAR FOR THE FUTURE OF NUTRITION SCIENCE.

AS POLICIES AND PRIORITIES EMPHASIZE IDENTIFICATION OF DIETARY FACTORS CONTRIBUTING TO OBESITY AND CHRONIC DISEASE, INNOVATIONS WILL EMERGE THAT IMPROVE THE NUTRITIONAL PROFILE OF FOODS, RATHER THAN JUST MAKE THEM MORE CONVENIENT, ACCESSIBLE AND AFFORDABLE. LUNARICH IS LEADING THE WAY.

Case Study: Lunasin

Year: 1995

Research: Meta-analysis of clinical trials shows a 12.5% reduction of LDL cholesterol with the daily consumption of 25 grams of soy protein.

Result: FDA approves health claim in 1999: 25 grams of soy protein a day, as part of a diet low in saturated fat and cholesterol, may reduce the risk of heart disease.

Year: 2006

Research: Meta-analysis of clinical trials conducted after the FDA approval shows that, on average, 50 grams soy protein per day reduces LDL cholesterol by just 3%.

Result: American Heart Association (AHA) petitions repeal the 1999 FDA health claim on soy protein.

So what happened between 1995 and 2006 to soy protein's ability to lower cholesterol? The demand for soy products skyrocketed with the FDA health claim, and producers developed more efficient manufacturing processes to meet that demand. Unfortunately, many of these processes, while increasing yield, removed the component in soy protein responsible for lowering cholesterol in the first place: lunasin.

Year: 2008

Research: Clinical study identifies the lunasin peptide in soy protein as the active ingredient responsible for lowering LDL cholesterol.

Result: The American Heart Association invites **Dr. Alfredo Galvez**, the leader of the study and discoverer of lunasin, to present at its national convention and publishes the study abstract in its journal *Circulation* in 2012. The very organization seeking to repeal soy protein's FDA health claim acknowledged lunasin's ability to support cardiovascular health.

A variety of people sign on with Reliv to build a substantial business. This just goes to prove that the Reliv opportunity is for everyone... and anyone can succeed regardless of age, gender, experience, background or interest in building the business. Here are some of their stories...

Hi my name is **Gusti Ayu** and my husband is **Ida Bagus**.

Before Reliv: I had so many health issues. I was dealing with cholesterol, acute sinusitis, uric acid. My husband's blood sugar management was out of control. His glucose levels ranged between 300-500.

After Reliv: We started on Reliv sets of three (Reliv Now, FibRestore and Innergize) within 2 months our health started to improve. My husband's blood sugar levels were back into a healthy range. My health issues were improving including my cholesterol. The discomforts I felt lessened. I feel in love with Reliv. The Reliv products significantly improved our overall health. Amazed with the Reliv products, we decided to share our story with everyone we meet especially, our family and close friends who knew about our health problems. We then started to share Reliv with our colleagues and everyone else that was interested. We are very enthusiastic with our Reliv business. We share Reliv from our heart, when we talk about Reliv we tell them about the results we've experienced. We started inviting people to the meetings and our business took off from there. In one month, we became Master Affiliates and won a car which was valued at 45,000 Ringgit Malaysia. We keep our focus on the business and the Reliv system. Two months after, in February 2010, we became Key Directors and won first place, earning an 8,888 Ringgit Malaysia bonus. We have also achieved a Dr. Ted Humanitarian award, Kalogris award and the 6 Star Director award. This was the beginning to our journey to a healthier and happier lifestyle.

Hi my name is **Marvin Louis** and my wife is **Liesemiwati** - Presidential Bronze Ambassadors

Before Reliv: We joined Reliv in February 2009 and we reached Senior Director in only three months!

First let me say, you should try the Reliv products. They are amazing and they can help you become healthier every day! Two weeks into the products and my stomach issues had significantly improved and my wife's intense headaches had lessened. As soon as we experienced better health and great results, I knew we had found something that finally worked. I love Reliv and will continue to take my shakes every day!

Reliv has improved my health as well as my family's health. We are very happy and excited that we started our Reliv business. We truly believe that our Reliv business has great potential and very promising for our future. We have found that everyone at Reliv is very committed, unlike other companies and they have a 30 day customer money back guarantee. We realized that this company is ready to support everyone who is interested in building a business. Reliv has a great compensation plan and we are confident that we can reach the highest profit level.

After Reliv: In just a few months after starting our business, we received our first Reliv check for \$1,963 and won a cash bonus of \$1,420 and generated the highest volume. We were focused on sharing the Reliv stories and how we have received bonuses and get to travel around the world. Three months later, we received \$5,653 and advanced to Senior Director. We also qualified to attend a business workshop held in Tagaytay, Philippines in October of 2009. We went on to achieve more rewards and achievements.

Just remember, people become a part of Reliv for lots of reasons - to improve their health, earn extra money, enjoy a better lifestyle, to have financial freedom and even to change the world. Whatever your reason is, the best part about Reliv is that anyone can achieve their goals.

Hi my name is **Grace Waworuntu** and my husband is **Dr. Sutjahjo Endardjo** – Senior Director.

We signed up as Master Affiliates in 2007 to get the highest possible discount. We didn't realize that we would also be starting our Reliv business!

Before Reliv: I was only trying to find products for my mother to help deal with her health problems – blood sugar management, high blood pressure and cholesterol. "After taking Reliv for just a couple of weeks, everyone was surprised – including the doctors – that my mother's blood tests turned out okay and that her cholesterol levels improved. That was when we realized that the products are really good!"

After Reliv: We started as Master Affiliates, got trained, learned the business model and established our goals. We committed to working one year and then reviewing our results. In our first month we shared our mighty products – Reliv Now, FibRestore and Innergize. Many of our friends signed up. And now since we have LunaRich X, so many people are amazed at the research and technology, so we totally improved to build our business in health professionals. We are so happy that Reliv can help many people with their health matters.

What's your story?

Share with us why you love to build your Reliv business! Email us at idinquiries@relivinc.com and have your story featured in an upcoming Reliv Lifestyle magazine.

10 Attributes of a Great Leader

by Ambassador Mair Hill

Mair Hill is an Ambassador with Reliv. She graduated cum laude from Colby College, ran her own multi-million dollar sales agency for 17 years and has since formally studied development/fundraising and nutrition. She is a professional speaker, personal development coach, author and blogger. Mair recently published her first book, A GOOD PLAN: Ten Simple Steps to Make Healthy Choices a Habit, to inspire more people to start taking better care of their bodies. Mair is proudest of her role as Mom to three amazing boys and has been beautifully married for 31 years. www.mairhill.com

Anyone can be a leader. We lead every day whether we're aware of it or not. You lead a child across the street. You lead a discussion at work, at school or at the dinner table. You lead a healthy life. The qualities of a great leader are the same qualities that make a great human being. Honing your leadership skills requires desire, awareness and practicing the attributes listed here. Whether your goal is to lead a few people or thousands, this is a great place to start!

1

Leaders Practice Kindness

There's never a reason to be mean. Ever. Period. A true leader avoids gossip and treats everyone with the same respect whether talking with the busboy or the CEO of a Fortune 100 company.

2

Leaders Listen

We are equipped with two ears and one mouth; a good reminder to listen twice as much as we speak. To listen effectively is to be fully present, rather than ten steps ahead, planning what you will say next. The most effective leaders listen so intently that the person speaking feels like he or she is the most important person in the world.

3

Leaders are Honest in All Things

Be honest not only with others, but also with yourself. Authenticity is important as a leader. Your reputation is built on a foundation of integrity and will crumble quickly without it.

4

Leaders Keep Their Word

Do what you say you are going to do. A leader sees the big picture, doesn't make promises he or she can't keep. If you promise more than you can deliver, be the first one to admit your mistake and offer an alternative plan of action.

5

Leaders Exude Confidence

When you aim to live authentically with kindness and integrity, it's easier to sit up a little straighter and stand a little taller. Confidence comes with taking decisive action for the highest good of all concerned.

6

Leaders Practice Humility

Leaders are smart enough to know what they don't know. They aim to surround themselves with people who are even smarter than they are because they know that two minds are better than one.

7

Leaders Empower Others

A true leader fades to the background and lets others shine; not out of shyness, but in order to lift up others. Being around a true leader is a positive experience, because you feel encouraged to be your best self.

8

Leaders Know Communication is Key

Leaders are adept at communicating clearly and concisely and fostering an environment where asking questions is encouraged.

9

Leaders Offer Constructive Feedback

A leader is willing to offer feedback when necessary and believes that it is best to praise in public and criticize in private. A real leader never belittles or embarrasses others.

10

Leaders Walk the Talk

The most effective leader is one who leads with their own actions. John Quincy Adams said, "If your actions inspire others to dream more, learn more, do more and become more, you are a leader." No matter your title or position, others will follow your example if it is a good one.

Hats Off to Reliv's 2015 Win Your Way Achievers!

Phuket, Thailand – May 15-18, 2015

RELIV KALOGRIS FOUNDATION TURNS 20

DECEMBER 2004

Sri Lanka was hit by a tsunami, one of the worst disasters in that nation's history. Tens of thousands died and countless were left homeless. Within 24 hours, Reliv Distributors Ian and Margaret Richardson of the Sarah John Foundation set up feeding centers distributing Reliv products.

AUGUST 2007

The first Walk for the Mission raised over \$180,000, enabling the RKF to complete our first feeding center/school for impoverished children in Cavite City, Philippines.

Dear Distributors:

I can best express my feelings about the last 20 years of the Reliv Kalogris Foundation in just two words: **"THANK YOU!"** The RKF's 20th Anniversary this year is a celebration of the life-changing work made possible by your generosity.

I take great pride in what you've allowed us to accomplish over the past two decades:

- \$42+ million in product to individuals and organizations in need
- 250+ feeding programs
- 9 countries of operation
- Now feeding 40,000+ people — mostly children — every day

This year's International Conference on August 6–8 in St. Louis will feature a special segment to mark this anniversary milestone for the RKF. I encourage you to come to conference and be a part of it. It will also give me the chance to thank you in person.

The world needs the optimal nutrition Reliv provides. We appreciate all you do to help us meet that need.

Together, we will Nourish Our World.

R. Scott Montgomery
Chairman, Reliv Kalogris Foundation

AUGUST 2005

Hurricane Katrina hit, one of the five deadliest hurricanes and the costliest natural disaster in U.S. history. Reliv Distributors and employees banded together with the company to raise \$125,000 for the American Red Cross.

DECEMBER 2007

The RKF reached \$1 million in annual Distributor donations for the first time, providing funds to increase the number of children fed by 38%.

MAY 2008

First building project completed in Liberele, Haiti

MARCH 2009

The RKF partnered with Convoy of Hope to provide water filters for all feeding programs in Haiti, home to the worst water in the world according to the World Health Organization.

JANUARY 2010

A deadly earthquake in Haiti affected as many as 3.5 million Haitians with an estimated 230,000 deaths, 23% of schools destroyed and countless displaced people who had already been living in extreme poverty. A relief drive raised \$80,000 to build the RKF Children's Home in Petite-Anse.

JANUARY 2011

The RKF completed a nationwide registration program, opening up donations to people and organizations outside our Distributor force.

MAY 2012

The Foundation received the Communitas Award for the work of the RKF Children's Home in Haiti.

NOVEMBER 2013

Super Typhoon Haiyan, one of the biggest storms in history, hit central Philippines. The RKF sent \$576,000 in nutritional products and \$25,000 raised by Reliv Distributors, which provided funds for rebuilding damaged homes of Philippine Distributors personally affected as well as community buildings associated with RKF feeding programs.

JANUARY 2014

The "Be the Change" Challenge raised more than \$50,000 in support of the Foundation.

This timeline includes some of the most noteworthy achievements of the Reliv Kalogris Foundation, but it is what the RKF provides every day through feeding programs around the world that is our biggest accomplishment.
